

## CAREER PATHWAYS AND COMPLETION OPTIONS

Skills related career pathway programming represents a blending of technical skills, specific coursework, and core academic courses offered with multiple completion options on a semester-hour basis. These programs may lead to a Career Certificate, Technical Certificate, or an Associate of Applied Science Degree. Career Certificates are completed in approximately 30+ semester hours. Technical Certificates are completed in approximately 45+ semester hours. Associate of Applied Science Degrees are completed in approximately 60+ semester hours. All programs operate under program specific guidelines.
